You will be expected to carry out the duties and responsibilities described in the job description, which is periodically updated to reflect company needs.

Key Responsibilities

- ✓ Design, develop, and maintain Oil & Gas web applications, including dashboards, data visualization tools, and digital workflows.
- ✓ Implement backend services, APIs, and microservices to support upstream operations (e.g., drilling, reservoir, seismic data).
- ✓ Collaborate with UI/UX designers, data engineers, and solution architects to deliver integrated, domain-driven solutions.
- ✓ Deploy and maintain applications in cloud environments (AWS, Azure, or GCP), ensuring scalability and performance.
- ✓ Ensure compliance with industry standards (e.g., OSDU framework for data integration).
- ✓ Produce detailed technical documentation and follow Agile/Scrum practices.
- ✓ Participate in testing, troubleshooting, and performance optimization of applications

Your compensation package includes the following:

- ✓ Basic Salary (Gross): **15.000.000 VND/month**.
- ✓ 13th Salary: as per the company's business performance
- ✓ Insurance includes Social Insurance and Health Care Insurance
- ✓ Work location: **Ho Chi Minh City**
- ✓ The standard agreement per company policy will be signed later.
- ✓ You will be subject to a three (3) month probation period starting from your commencement date. During this period, either party may terminate the employment with the required notice. Continuation of employment after the probation period is subject to satisfactory performance.

If you accept this offer, your start date will be **01st June 2026,** or another mutually agreed date. Furthermore, please sign below and return this employment offer to the company. This employment offer is in effect for five business days.

Sincerely,

Doan Viet Trung

Director

I agree and accept the terms and conditions.
